

HP DRAGONFLY PRO CHROMEBOOK

Product Spec Sheet

Operating System	Chrome OS™
Processor(s)	12 th Gen Intel® Core™ i5-1235U (12 threads, 3.67GHz) processor[1]
Graphics	Integrated: Intel® UHD Graphics
Memory	16 GB LPDDR5
Internal Storage	256 GB PCIe® NVMe™ SSD[2]
Display	14" diagonal, LCD (2560x1600), multitouch-enabled, IPS, 1200 nits, 100% sRGB [3]
Screen-To-Body Ratio	87.6% [4]
Webcam	8MP camera
Audio	Audio by B&O; Four speakers (Two up-firing, two down-firing)
Input/Connectivity	4 Thunderbolt™ 4 USB4™ Type-C®
Keyboard	RGB Backlit
Wireless technology	Wi-Fi 6E; BTLE 5.2 [5]
Battery Life & Power	All-day battery life [6] 4-cells (2S2P), 51.3 Wh Li-ion polymer [7] 96 W USB Type-C® power adapter, PD 3.0
Battery Recharge Time	Supports battery fast charge: approximately 50% in 30 minutes [8]
Weight and Dimensions	3.33 lbs 12.4 (W) x 8.7 (D) x 0.7 (H) in
Color	Ceramic White or Sparkling Black
Security and Protection	H1 secure microcontroller
Sustainable Impact Specifications	65% recycled metal in D cover (Mg), A cover and C cover (Al); 15% recycled plastic in keycaps, speaker box and battery; Outside box and corrugated cushions are 100% sustainably sourced and recyclable; EPEAT® Gold and ENERGY STAR certified [9] [10] [11] [12] [13]

Disclaimers:

[1] Multi-core is designed to improve performance of certain software products. Not all customers or software applications will necessarily benefit from use of this technology. Performance and clock frequency will vary depending on application workload and your hardware and software configurations. Intel's numbering, branding and/or naming is not a measurement of higher performance.

[2] For hard drives, GB = 1 billion bytes. Actual formatted capacity is less. Up to 7GB of hard drive is reserved for system recovery software.

[3] All performance specifications represent the typical specifications provided by HP's component manufacturers; actual performance may vary either higher or lower.

[4] Percent of active plus nonactive viewing area to active viewing area plus border. Measure with lid vertical to the desk.

[5] Wireless access point and internet service required and sold separately. Availability of public wireless access points limited. Wi-Fi 6 is backwards compatible with prior 802.11 specs. Wi-Fi 6 is designed to support gigabit data rate when transferring files between two devices connected to the same router. Requires a wireless router, sold separately, that supports 80MHz and higher channels. Wi-Fi 6 (802.11ax) is not supported in Belarus where Wi-Fi settings will be optimized to local regulatory requirements (802.11ac).

[6] Testing conducted by HP using Google Chrome OS powerLoadTest. Battery life will vary and the maximum capacity of the battery will naturally decrease with time and usage. See https://chromium.googlesource.com/chromiumos/third_party/autotest/+refs/heads/master/client/site_tests/power_LoadTest/README.md for test details.

[7] Actual battery Watt-hours (Wh) will vary from design capacity. Battery capacity will naturally decrease with shelf life, time, usage, environment, temperature, system configuration, loaded apps, features, power management settings and other factors.

[8] Recharges your battery up to 50% within 30 minutes when the system is off (using "shut down" command). Recommended for use with the HP adapter provided with the notebook, not recommended with a smaller capacity battery charger. After charging has reached 50% capacity, charging speed will return to normal speed. Charging time may vary +/-10% due to System tolerance. Available on select HP products. See <http://store.hp.com> for a full list of product features.

[9] Laptops manufactured with recycled metal material in product cover. Percentage of recycled metal varies by product.

Recycled metal is expressed as a percentage of the total weight of the metal according to ISO 14021 definitions for metal parts over 25 grams.

[10] Keyboard keycap contains post-consumer recycled plastic. Percentage of post-consumer recycled contained in each component varies by product.

[11] Percentage of post-consumer recycled plastic varies by product. Recycled plastic content percentage is based on the definition set in the IEEE 1680.1-2018 standard.

[12] 100% outer box packaging and corrugated cushions are made from sustainably sourced certified and recycled fibers.

[13] Based on U.S. EPEAT® registration according to IEEE 1680.1-2018 EPEAT®. EPEAT® status varies by country. Visit <https://www.epeat.net> for more information.
